## Summary

Dedicated and detail-oriented college student with a passion for data analysis and a strong foundation in data-related coursework. Currently a student at SRMIST Ramapuram pursuing a BTech degree in Computer Science Engineering.

Aspiring to become a Data analyst, I have some basic knowledge on various fields like Web Development, Artificial Intelligence, blockchain. Currently expand my knowledge on the field of Data Analytics by developing skills that are required like Tableau, excel, MATLAB.

Always welcome to meet and connect with new people, set deadlines to complete my work, and looking forward to expand my knowledge. I tend make errors while coding, but I also do constant debugging of the code and rectify my mistakes.

Projects:

### 1. Expense Manager using Python and Excel (Basic)

-->Python program which collects the expenses in daily life from the user which tracks and creates a budget for the user and all the data's are stored in the excel sheet.
